

## SPAY/NEUTER POLICY

RESCUE UR FOREVER FRIEND (RUFF) charges a \$100.00 spay/neuter deposit with every unaltered puppy that is adopted. The purpose of the deposit is to ensure the puppy will be altered **before she/he reaches 6 months of age**. Puppies can be spayed/neutered at 14 weeks of age (minimum) up to 6 months of age (maximum). This \$100 deposit will go towards the cost of spay/ neuter of the puppy. After the adoption is completed, all vetting (spay/neuter, boosters, heartworm and flea prevention) is the responsibility of the adopter. To assist you in obtaining a cost effective spay/neuter for your puppy, RUFF offers **two options**:

➤ **Option One: Spend your \$100 Spay/Neuter deposit with a RUFF Partner Veterinarian**

If you choose to utilize one of RUFF's partner veterinarians below, RUFF will use your \$100 deposit to **cover the cost of the spay/neuter, and pain medications. If it is time for their rabies and DHPP booster, that will also be included.** Any other services or products recommended by the vet, including bloodwork, fecal exam, heartworm prevention, flea and tick prevention or additional vaccinations are the responsibility of the owner. Be sure to inform the vet when calling that you adopted your puppy from RUFF. You will need to bring the medical jacket with you to the appointment.

You may mail the receipt to the address listed below or email it to **info@ncruff.org**.
